BUILD WITH US

WHAT WE ARE

"We stay professional and pragmatic and find the best solutions."

SINGRAULI CONSTRUCTION PRIVATE LIMITED

We are an engineering unit incorporated in 2011 by Rajesh Yadav & Mrs. Usha R. Yadav, with the headquarter at Anpara as an upcoming organisation in the north India region with the vision to build long-term relations with all our clients through persistent efforts in providing quality products & services and meeting with complete customer satisfaction. The company covers a wide range of activities from concept to commissioning - planning, detail engineering, design and drawing, fabrication, mechanical, erection, installation, testing, commissioning, troubleshooting, operation maintenance of all types of mechanical and civil activities of pipe lines and other industry-related works etc. We are capable to work from infrastructure to steel & power sector.

We are a team of qualified and experienced engineers, who have executed the work of similar nature in the capacity of project manager with the full personal attention at project site, such as fabrication & erection of CHP, Bunker, CW piping, CWPH, SACW pump house etc. as structural mechanical work and site office buildings construction, area grading of plant, construction of roads, heavy concreting etc. as the civil works specially for thermal power projects. We work for smaller to bigger diameter pipe line works & its associated equipment & adjoining related civil and electrical work for thermal projects. Most of the work were appreciated by the authority of high quality & time bound completion of work. We have a fully skilled force and we are committed through careful attention is always given to safety matters with detailed method statements and risk assessments given prior to the commencement of any work. Work is carried out with a very strong commitment to health and safety has an intensive system in place to ensure continuous improvement & the

OUR MERITS

"I Happy employees lead to happy customers, which leads to more profits"

highest of health standard of its staff, clients and the general public to achieve a peace of mind & compliance with statutory requirement. we strongly believe our job is never so important that it cannot be undertaken in a safe and dependable way.

EXPERIENCE IN CIVIL AND STRUCTURAL WORK

All civil Work from pile casting to foundation works. Miscellaneous civil works mainly piling, excavation, PCC, RCC, reinforcement cutting and bending, fixing up to the casting of civil structures in the main power House, ESP super structures building & vast experience in heavy fabrication & erection of smaller to larger dia pipes, CHP, CW, CWPH, SACW, bunker & BOP works.

ORGANISATION STRUCTURE

Work experience: Specialisation in mechanical & civil works. Having vast experience in designing, development & execution of civil, mechanical work. Experience in Heavy Fabrication erection & civil execution in thermal power sector. Looking after overall execution of projects for the technical, financial, marketing and administrative matters.

RAJESH YADAV (Managing Director)

Work experience: Mainly experienced in contracts, financial matters & general administration.

Mrs. USHA R. YADAV (Director)

OUR VISION

Our vision is inspired together moving towards building up a strong brand company in the field of engineering services through continuous improvement in technology, quality, innovation, quick services. Our policy to provide our customer with a quality product and system that consistently complying with the statutory requirement. We have a strong brand presence around the area and one prevailing aim to remain the first choice in the market segment by becoming a national benchmark. We believe our client satisfaction determine our present and future success. Our values by which we want to operate and be known:

INTEGRITY AND HONESTY

Safety is the most important of our core values. It is our first priority during every work day.

SUSTAINABLE BUSINESS

Involvement in and support of the community are at the heart of our company.

GROWTH & TEAMWORK

Structure's commitment to green building and sustainability is long-standing.

OUR SERVICES

MECHANICAL ENGINEERING

- Pipeline project in all industrial sectors [smaller to larger dia pipes]
- Laying and jointing of ms pipe.
- Fabrication & Erection of CW, CWPH, SACW pump house, mill bunker bay & BOP of Thermal power projects.
- Approach bridges/Walkway bridges / Anchor girder bridges.

ELECTRICAL ENGINEERING

- Electrical wiring & Cabling.
- Control panels manufacturing & installation.
- Electrification Work.
- Power Distribution System.

CIVIL ENGINEERING

- Water and sewer master plan.
- Earthwork and RCC work execution.
- Industrial and commercial site layouts.
- Utility infrastructure research, planning & plotting.
- Construction Management.
- Municipal and private infrastructures scheme.

GENERAL UTILITY SERVICES

- Surface preparation of components by sand blasting & shot blasting methods.
- Epoxy Painting of M.S. Components.

OUR PROJECTS

DOOSAN POWER SYSTEM

- Fabrication & erection package in the year 2019 to 2022 (including painting)

THYSSEN KRUPP INDUSTRIES INDIA

- Package of fabrication of CHP structures including roofs, trusses & other works in the year 2018 to 2021.
- Package of construction of office spaces, safety parks & stores 2018.

GE POWER INDIA LIMITED

- Fabrication of shipping frames.
- Fabrication of shell module, hot well, upper neck, lower neck, connecting piece, air collar in the year 2018-2019

LANCO ANPARA POWER

- Balance civil work of plant in the year 2018.
- Road Repairing from the main gate to the ash silo in the year 2018
- Construction of RCC Road from the main gate to the ash silo in the year 2019-2020
- Repairing of bituminous Road at the colony in the year 2019-20
- Laying & Repairing of the bituminous road at the plant area in the year 2019-20
- Raising and Rerouting of ash pipeline in the year 2021
- Construction of RCC road in the year 2021
- Construction of RCC culrest no 2 from barrack 1 in the year 21-22

OUR PROJECTS

HINDALCO INDUSTRIES LIMITED (RENUSAGAR POWER DIVISION)

- Repairing of the main drain on a slope, cross drain on slope, service road, etc. of old ash dyke in the year 2021 arack 1 in the year 21-22
- Soil topping for proposed solar plant at rehusagar in the year 2021.
- Repairing of main drain slope, cross drain slopes at bichari.
- Construction of new weigh bridge in the year 2021.
- Repairing of bitumen road in plant area in 2022.
- Repairing of bitumen road in colony area in 2022.
- Civil construction work for installation of filter press at ETP in 2022.
- Repairing of approach road for smooth transportation at main ash dam & pre dam in 2022.
- Construction of badminton court for DET's in colony area in 2022.
- Laying of Bitumen Road at old ash dyke area (madhuban Park) area in 2022.
- Laying of WBM & Bitumen Road at Bichhori Road from PWB road to Kauwa nallah.
- Rerouting of ash water pipe line, CW water line Electrical cable etc. for field work.
- Construction of Mcc room for Field implementing in unit #5
- Excavation work for field building & acid tank foundation.

OTHER BUSINESSES

SINGRAULI ASSOCIATES

Singrauli Associates is with a reputation for superior professional services which is built upon a team of qualified and professional practitioners, engineers, & technicians Supported by the required manpower that is dedicated the delivering Innovative & professional solutions, who are responsible for undertaking all the work ensuring the high level of high security & safety in friendly Environment. Our team comprises professionals with specific and relevant experience in all aspects of project infrastructures by specialist sub-consultants.

COMPLETED PROJECTS

NTPC-Bindhanagar - 2 x 500 MW Thermal Power Project

Work : Civil & structural work of intake pump house for 3rd stage in the year 2004 to 2005

Jindal power plant, Tamnar(CG) - 4 x 250MW Thermal power project,

Work : Civil & structural work of 1000mm dia piping & laying work in the year 2006 to 2007.

BALCO,Korba (Co)

Work : Miscellaneous civil works, in the years 2007 to 2008

LANCO, Amarkantak, Korba (CG)

Work : Fabrication & erection of coal bunker in the year of 2007 to 2008

TOOLS & TACKLES

SR. NO.	EQUIPMENTS	QTY.	MAKE	CAPACITY
1	Welding Rectifier	50	Mogara	450/460Amp
